DAILY COURIER.

WEDNESDAY,AUGUST 25, 1858. Reading Matter on every page. The Proposed Revival of the Old Whig Party.

The editor of the Louisville Jonrnal is in what s generally understood to be a very bad condition for a politician. He finds himself, after years of toil, without a party. He confesses that the American party is a failure, an ill-timed adventure; and, in casting about for the necessary allies of a political organist, he proposes to revive the old Whig party. Circumstances have driven him to this desper

ate attempt. His influence is daily declining off. The thousand and one councils that took his paper, and made it the text book for Sam's disciples, swear hy it no longer. The people of the South don't like the reading matter they find in the Journal. It is too much of the free nigger. They want a paper that is a little more national and decidedly more Southern.

But the idea of the editor of the Journal at tempting to revive the old Whig party, is a novel one. Few did so much to disband and destroy that noble party as he. He helped to build up the Kuow Nothing party on its ruins, and worse than this, he prepared the ruins on which to cult for exploration beyond the call of such emcrbuild. Let us examine his connection with the Whig party, and see if he is entitled to be heard with any respect upon a proposition to the publishers, and the same of another work by the same author, furnish a guaranty of the nsehreathe into its nostrils new breath, and to reiufuse the Promethean spark into the noble form he has destroyed.

Twenty-six years ago, when Clay ran against Jackson for the Presidency, the editor of the Journal may be said to have begun his career with the Whig party. This was in 1832, and the popular vote of that year showed the Whig strength in the Union to be a little over half a million of souls. The editor was then fresh from his native Connecticut-had written and published a sketch of Clay, and began life here an ardent Whig, with a party half a million strong, and Henry Clay

at its head. During the twenty years which immediately succeeded 1882, Henry Clay, the great founder of the party, went on building up and strengthening the Whig party. It grew mightier and mighties under his great and glorious guidance. In 1536

its strength had increased from 550,189 to 736 736. In 1840 its numbers swelled to 1,274,783 and elected General Harrison to the Presidence by a majority of 146,081. In 1844 its forces numbered 1,297,033, and only lacked 38,801 of electing the great founder of the party to the highest office in the gift of the American people. In 1348 the Whig armies numbered 1,362,001 soldiers, who marched General Taylor in triumph to the Presidential chair. And in 1852, nearly five months after death had claimed a mighty and illustrious sacrifice, and Henry Clay had been consigned to the tomb, his great spirit pervaded the American leart, and secured 1,378,589 votes for General

Scott. llere, then, was a steady increase in the strength of the Whig party from its foundation to the death of its founder. It had grown from half a million to nearly one and a half millions of souls. Bu when the great and glorious Clay went down to the grave, his party fell into the hands of such managers as the editor of the Louisville Journal-The first thing they did with the party was to substitute Sam for the great spirit of Henry Clay, The manly and open manner in which Clay had fought the Democracy was laid aside for secret ouncils, oaths, and grips, and pass-words. The nallo wed name of Whig was laid aside for the opprobious epithet known as Know Nothing. They soon became ashamed of this, however, and called themselves Americans. They became mighty fighters at the polls, made spread-eagle speeches over the country, talked about Americans ruling America, issued the most terrible bulls against the Pope of Rome, and stirred up the greatest hubbub that was ever known in the land.

But their first effort in the national arena showed what kind of heirs had inherited the great party of the illustrious Clay. They put Millard Fillmore in the Presidential race of 1856, and called upon all the disciples of Sam to sustain him. The Louisville Journal said this was all right and assured its readers that Fillmore would be elected The November election came, and Fillmore only got 885,960 votes. This was a falling off of 492 629 from the vote of Gen. Scott, which was the strength of the Whig party as Henry Clay had left it. Does this look like the editor of the Journal, the biographer and worshipper of Henry Clay was capable of conducting the attairs of a great party, and properly advising sensible men what to do? He sold out the old Whig party-the party founded, sustained and made mighty by Henry Clay-to 3am, and he now proposes to sell out Sam to Sambo. In other words, he disbanded the Whig party three years after the death of the founder, and built up the American upon its ruins. Three years more have clansed, and he now pro poses to disband the American party and to build up the Black Republican upon its ruins. Is such a leader to be longer trusted? Has he not shown himself to be unfit for a leader? He advised the Whigs to disband, and that advice was wrong .-He advised Whigs to become Know Nothings, and that advice was wrong. He now advises the Whigs to revive, and as Whigs or Americans to join the Black Republicans. It requires no time to show that this advice is wrong. The mere suggestion of a coalition with Black Republicans is wrong, per se, especially when made in the South. But this destruction of the Whigs, by inducing them to disband and become Know Nothings, was not so bad as what the editor of the Journal now proposes to do. His contemplated revival of the Whig party is a mere disguise to form a coalition with the Black Republicans. He says that four tifths of the Americans and Republicans formerly belonged to the Whig party. He now wants these four-tifths, these Americans and Republicans, to unite under a common banner against the Democ racy. Let us see what would be the result of such an union. Let us see if it would not put the Gov ernment into the hands of the Black Republicans

if the coalition were to succeed. In 1856 the vote for Fremont, which was the Black Republican strength, was 1,334,553. The vote for Fillmore at the same time, which was the American strength, was only 895,960. Since that time the Black Republican strength has been daily increasing, and the American steadily decreasing. In 1856 the Republican strength was onethird more than the American, and it is now be yond all question doubly as great. It is evident, therefore, that so soon as the two unite, the greater will swallow up the smaller, just as the great whale swallows the smaller fish of the sea. To unite these two parties, therefore, is to make the whole Black Republican; or, in other words, to give the Black Republicans the entire control of the Government, if the coalition should be strong enough to clect a President.

Now, what are we to think of an editor who dwells upon Southern soil, and whose paper is supported by slave owners, advising a coalition which portends such a resuli? The Black Repub licans have sworn that there shall be no more slavery in this laud. They have sworn that they will not cease striving till they remodel the Supreme Court of the United States, and annul the lecision which legalizes slavery in the territories of the Union. They have sworn that the area of slavery shall not be extended, but that it shall remain as it is, until free labor shall gather around its confined limits in such overpowering strength as to exterminate it. And yet, an editor. whose paper is supported by pro-slavery men, omes ont boldly in our midst and advises Amer icans who own slaves to form a political alliance with these Black Republicans, with the prospec of putting the government into their hands.

New Law Book. A PRACTICAL TREATISE ON THE REVENUE LAWS OF UNITED STATES. By C. C. Andrews, Counsellor at L Author of a "Digest of the Official Opinions of the torneys-General of the United States." Bostou: tle, Brown & Co. 1858.

Several of our inland Southern and Western cities

have recently been made ports of entry, and

hence the questions arising under the Revenue Laws of the United States, though not with such requency, may be expected to arise in those places as well as on the seaboard. No title in the Law is so little understood by the profession genrally. Indeed, to understand it well, involved the necessity of mastering a system without or der, laid ont in disjointed statutes of such great difficulty of construction as to elicit complain from our most profound jurists, with no other aid than general principles and the scattered lights of udicial interpretation. We confess that the subect has been too difficult and repulsive for us to udge critically of the merits of the present work. We hail it, however, as an aid and teacher by whose light and help the wav may be smoothed to many, like ourselves, who have found it too diffigencies as have falleu in our way. The name of

fulness and ability of the present publication. The following is about as rich a thing as we have read for many a day. It is from the Frankfort Yeoman:

A FINANCIAL QUESTION -- A MODEL CITY-FRANK-FORT AS IT IS. Frankfort, as most of our readers know, is corporation, It is not only a corporation, but it is a speculator. When its biography comes to be written, a series of financial achievements will be disclosed which will place Barnum entirely in the shade and beat his wooly horse out of sight

Frankfort is an euterprising genius, who essays to do a very large business upon a very small capital. Like all great speculators, Frankfort has failed and mortgaged itself for its dehts. Frankfort built itself a splendid hotel, to pay for which it taxed its unfortunate inmates, and mortgaged its water works. s water works. Frankfort has also been engaged in the nigger rade, having bought an Ethiopian and sold the ame. Frankfort has also been engaged in the

whisky selling business, and still has a bar where the ardent is retailed with sugar.

Fraukfort having failed to get rich at building otels and taking in travelers, buving and selling iggers, and retailing whisky, lately trued a new tind of business, viz: It has turned billiard mark-r. A short time since, it either bought or borowed a wooden top billiard table, and is now ailing that scientilic sport, and healthy exercise at 25 cls. the hundred points. We, in our simplicity, thought that when Frank

ort started its wooden topped billiard table, that thad got down low enough, but we, in our simplicity, were mistaken. It bastaken a deeper dive, which we will proceed to relate, and which is ablutely true, as incredible as it may appear .-On Thursday night, as stated in another article ome of the most enterprising and respectable of our citizens celebrated the greatest event of this eutury (Atlantic cable) with bonfires, music, and peeches. Well, what does the hotelian, nigger-rader, billiard-marker Frankfort, do about that?

t sends its little old town agent out to get the names of the wealthiest of the celebrators, and nave them tried before Judge Bradley for a riot and breach of the peace. It is a positive fact, and the trial of these public spirited fellows is set for on o'clock to-day.

This is at least thirty per cent, worse than stealng. We don't blame Frankfort for being poor, and we know that its agents must live somehow; out how much more respectable it would be for rankfort to go to the poorhouse at once, thau it s for to try to eke ont a miserable existence by committing such petty larceny upon its citizens, who have a little money. It is a shaune and a disgrace. We blush to record it, but it is even so the gentlemen who celebrated the great event of as age, even the umbilical cord, are to be tried o day at ten o'clock, A. M., for a riot. Every ther city in the Union has celebrated this event at the expense of the city. But here, when a few enterprising citizens, at their own pen, col-brate the umbilical cord, the city of Frankfort sues them, and hopes to put money in its purse by

It is one of the best wheat countries that can be found, and generally produces good corn and cotton, and with proper care determined as the state of th and attention, quite a variety of vegetables and fruits may be raised. There are many cool springs and clear streams, and generally the water is good and abundant. Timber in some places is scarce, but good coal may be had in sufficient quantities to supply all the demands for fuel. Some excellent beds of rich iron ore have been discovered in nexion with the coal, offering inducements t connexion with the coat, one-ring inducements to profitable investments. This part of the State is settling rapidly with citizens, nsnally from Kentucky, Indiana and Missouri. Much ot the labor is there performed by white citizens, and they have already commenced enjoying the comforts that flow from industry bestowed upon rich soils. Specimens taken from beds that cropped out from eight to ten feet thick, have been examined and found to contain sixty-eight per cent. iron. Sometimes the iron ore forms nearly the entire mass of the hills for eight or ten miles in width, and from twenty to thirty miles in length, most of it npon analysis, yielding from fifty to sixty per cent iron. Large quantities of timber are in the immediate vicinity of the Iren ore, as also indications of some other valuable minerals. SOUTHERN PACIFIC RAILROAD. The stockholders in this road who were sold ont under the deed of trust recently, were represented in the meeting held vesterday in the hall of the Masonic Temple. The meeting was large, and

ricinity. Dr. J. Fonlkes, the President, who succeeded Geo. S. Yerger, Esq., was present, and repesented 190,000 shares of stock, of which 130,000 were his own. The organization was had by se lecting Hon. Jas. Guthrie, President, Rev. Jas Shannon, of Missouri, Secretary. Mr. Guthrie arose and said that he was no stock nolder, but had consented to act at the solicita tion of gentlemen. Dr. Foulkes, at the suggestion of the Secretary

read his report of the condition of the affairs of the &c., valued at \$40,000; 25 miles of road, \$625,000; road, premising that it was a rough report, in which some minor points may not be noticed, but on the whole, presented the facts and true condition of THE PRESIDENT'S REPORT. The report of Dr. Foulkes, the President, read

to the meeting and referred to the committee, is oluminous, and of such length as to preclude its publication this morning. It gives a perfect his ory of the road, from its conception to the presen time. In brief, it states that the old officers of the road have managed its affairs badly, and been guilty of great waste and extravagance. There has been no over issue or fraudulent issue of stock as charged. The road, by mismanagement ha passed from the hands of the stockholders, the legitimate owners; into the possession of those who purchased it under a deed of trust executed by its old officers. This deed of trust is clearly null and void. The road is in debt, and at the present term of the Marshall County (Texas) Court, judgment against it to a arge amount will be rendered. The money must be raised to pay off these debts, or the stockhold ers will lose their entire interest. \$3,120,000 of stock has been subscribed in all. The assets of the company, including the value at a low estimate of twenty miles of road, are \$2.098,000. The entire indebtedness is \$465,932. The installment debts due the road amount to \$270,000. With \$200,000 in cash it is confidently believed that all difficulties may be arranged and the road restored to its lawful owners. The completion of five miles more entitles the company to 256,000 acres of land from the State of Texas, which is worth

from \$3 to \$10 per acre. The Secretary, on account of feeble health asked the appointment of an Assistant Secretary, which was done, and Col. Whitely selected for the place. Mr. Shannon further proposed, is in order, that the names of the stockholders present, with the shares they represented, be re corded. The motion prevailed, and the record was made. When completed it showed that up wards of 200,000 shares and a majority of th

whole amount of stock was represented. Elder D. P. Henderson offered a resolution tha a committee of five be appointed to consider the report submitted by Dr. Foulkes, and, pending be consideration, he furnish such information as said committee may request and think necessary. This resolution carried, and the President appointed Col. John H. Harney, Jacob Swigert, Geo. Williams, John McCracken, Judge W. S. Bodley. The committee agreed to report at 4 o'clock and the meeting adjourned to 3 o'elock, P. M.

Judge Williams, chairman of the committee to whom was referred the report of the President, submitted the following

Resolved, That a trustee be appointed of the uds so contributed, who shall receive and hold it until he is notified and satisfied that a sufficient sum is raised to relieve the company from its present embarrassments. Until that time no part of the fund shall be used, nor shall it be paid over until authorized by meeting of the stockholders called together upou notice given by the trustee.

Resolved, If a sufficient sum shall not be raised

to relieve the company of its present liabilities, the trustee shall return to each contributor the amount of his contribution. Resolved, That your committee have full confidence in the value of the enterprise, and that the sum necessary to relieve it from its present emarrasements is trifling, and that the contributor nerated by the immedi ately enhanced value of their stock.

Resolved, That your committee believe that if

the necessary means are not raised the interest of the stockholders must be sacrificed, and the great enterprise postponed, if not defeated. And we herefore carnestly invoke the stockholders to Resolved. That as soon as the present embar-rassment of the company is relieved, the road can and will be put under such control as will se-

cure its completion and jucrease the value of the means already invested tenfold. Resolved, That in furtherance of these views ol. Juo. H. Harney, Rev. Jas. Shannon, and Col L A. Whitely, prepare a report of the proceedings of this meeting, together with an appeal to the stockholders of this company, urging upon them the payment of the percentage suggested in the first resolution upon their respective shares of stock; also, that meetings of the stockholders in

New York, Cincinnati, St. Louis, New Orleans Nashville, Knoxville, Memphis, and elsewhere, he held to co-operate and aid our efforts to provide the means necessary to free the company fron embarrassment. them forthwith Judge Williams, in submitting the report, said that \$50,000 in cash would be required to relieve the present liabilities, and \$200,000 would be uecessary to restore the road to the stockholders. He moved the adoption of the report and resolu-

Col. Bullock, of Shelby, proposed that the reso lutions of the committee be acted on severally, which was done; and the resolutions of the committee, together with the President's report, were

In the original resolutions it was proposed that zealous Know Nothing paper, but which will not the Chairman, Mr. Guthrie, with the other officers of the meeting, prepare a report of the meeting and Underwood, to the Black Republicans, calls and an appeal to the stockholders. Mr. Guthric Senator Crittenden "the inveterate place hunter asked to be excused, and said that he was not a of Kentucky.' This is one of the unkindest cuts stockholder, and it would be unseemly in him for this reason to urge others to come forward in aid. In all the enterprises in which he had engaged, he never asked others to give where he himself did not. He again asked that bis name be strick. en out and another substituted.

> Mr. E. F. Waide, of Oldham county, alluded to the report of the President, and said he would like to understand things connected with the management of the affairs of this railroad. He was a stockholder, but donbted that the acknowledgment added to bis reputation as a man of busi ness. Twenty miles of road bad been built, and \$3,000,000 was its cost. This money had been squandered. What had become of it? This meeting was the place to investigate the matter Then the company could have the credit which was its due, and where wrong had been done, those who had done that wrong should be published to the world. He was not willing to subscribe any more until a satisfactory investigation was made. He thought \$200,000 a mere drop in the bucket-800 miles of the road was to be built-Make a satisfactory exhibit of affairs; this will inspire confidence, and the interests of the comcusing Mr. Guthrie as he wished. The meeting,

by vote, agreed to excuse Mr. Guthrie. It was moved and carried unanimonsly that A D. Hunt, Esq., be appointed trustee.

Judge Williams said the committee bad examined the exhibits accompanying the report and ascertained the indebtedness of the company, and what amount was necessary to relieve it. To that extent alone the committee directed their efforts. As to the three millions squandered, the committee had no power to investigate. That belonged to those who came hereafter. The question was, whether the great enterprise was to be abandoned; would not the stockholders be willing to contribute, as proposed, 50 cents on each share to relieve it, and place it in a condition to realize

will possess the Company of large grants of land om Texas. Judge Williams said he thought the report of Dr. Foulkes elucidated the thing per-Dr. F. was now present and could explain anything desired by those present. In reply to a principally composed of those in this immediate question as to whether other liabilities might not arise, he responded that the resolution provided

that the contribution be returned if there were

not sufficient to release the road from its difficulty. Dr. Fonlkes then read from the cxhibit a list f the debts of the concern, amounting in the aggregate to \$465,932. He showed that the asts comprised the installments due, amounting to \$270,000; bonds and mortgages on 76,000 acres of land, \$380,000; land in Mississippi, \$15,000; 350 acres of land in Texas, including depot grounds. and 256,000 acres of land worth \$3 to \$10 per acre. This last item was the property of the company on the completion of the 5 miles to Marshall. In all, as submitted in his report, its assets might safely be estimated at \$2,098,000. The amount he had named was substantially what was the debt of the road. Certainly \$10,000 or \$20,000 nore would cover it. The history of the company indicated small service and rigid collections. If debts existed, they would have been known beore this time. In reply to some gentlemen who liked! facts, not fancies, and who inquired why acts from the books were not given, Dr. F. reponded with some feeling, that the present directory was not responsible for the waste and exravagance of that which preceded it. He and his associates had been in power but 60 days, and he did not wish to be held up as guilty for what others had done. He had no rascality of his own to cover up, and wasn't disposed to cover up that of any body else.

Dr. F. resumed his remarks, and said, perhaps udoment was taken vesterday in the Marshall ounty Court for deht against the company amounting to one hundred and fifty thousand lollars. No sale of the property of the road ould be made before November. Those now possession don't value the title acquired by the urchase under the deed of trust worth as much as his spectacles; but through these judgments they seek to and can get a title. The property of the road is tied up beyond use until redeemed. The old company beld their right by charter-the new hy a purchase that could not he sustained. That purchase was made with a view of disorganzing the old company, and they now seek to use these judgments so as to get possession of the road. If this be done, there is no redress. They offered me the same amount of stock in their com any that I hold in this. I declined it. [Applause. In April, myself and associates tendered the Presilency of this road to the honorable Chairman (Mr. Guthrie.) It would have been to our interests to have secured him, but he declined. Applause.] The installments' will, of course, be applied to the payment of debts-and if those who owe will come up, no other money may be needed. With \$50,000 these difficulties with the new compauy may be adjusted, and with \$200,000 the stock holders will have the road in their possession in thirty days. Dr. Foulkes concluded by saying that more competent persons could be found, and he was willing then to surrender his position. Mr. Guthrie rose and said he was constrained.

u justice to Dr. Foulkes, to say that gentleman and others, some time previous, had urged him to accept the Presidency of the Southern Pacific Railroad. He was in favor of the road, but he did not think himself of sutti cient experience to undertake such an enterprise Besides, he had returned to Louisville, and con nected himself with the Louisville and Nashville and Memphis Railroads. He owed it to this city which had been and was his home, to exert hi best efforts in connecting it with the South by a ehain of railroads. The Southern Pacific Railroad was in the hands. If the stockholders will come up, the present President and Directors will save the road. Dr. Foulkes, he said, has more enter prise than 1, and more than I ever could have Applause.

Col. Whittaker offered the following resolution Resolved, That the thanks of the stockholders in the Southern Pacific Railroad is due, and fully iven, to Dr. J. Foulkes, President, for his untir-ng, faithful, and energetic labors, and for the sat-sfactory report he has made this day. The usual resolutions were offered and passed,

thanking the officers of the meeting, and it was adjourned sine die. l says of the strength of Cherbourg: fter it will not be St. Juan d'Ulioa or Gibraltar. nt Cherbourg, that will be entitled to the nam

IN KENTUCKY CITY! On Monday, 27th of September, 1858, WILL commence the second and final Sale of Lots in this growing and most interesting among the best classes of the country than volumes from unknown sources:

Girard House, Philadelphia, May 7, 1856.

Prof. Charles DeGrarm: I freely give it as my opinion that your "Electris Oil" is among the most wonderful remedies of modern times. At the earnest request of a lady who alleged she had been relieved of a most painful affection by its nse, I was induced to try a bottle, though at the time of purchasing I fully believed it to be a quack medicine and a catchpenny humbug. But a trial convinces me that it possesses a magic power, and its use will prove a blessing to suffering humanity.

I recently took a cold from sleeping in damp sheets, and my neck became so much swollen and painful that I could not turn my head.

After using, without success, everything prescribed by my physician, I last evening tried your Electric Oil. This morning I am well, the relief having been as complete as it was instataneous. YOUNG CITY.

The Trustees, in announcing this sale, feel warranted in assnring the public that at no point in the West can here be found a better chance for safe and profitable

livestment.

Is located on the east bank of the Mississippi river, twenty miles below the mouth of the Ohio river, at the first exhible highland, and in point of fact, being the mouth of the Ohio river; surrounded by a bigh, teatthy, and fartitle country, rapidly growing in well h and population, with a salubrious climate, generous, liveral and enlightened society. There wanted but one farther feature to make this the inost commanding point on the "great Father of Waters"—this want was an uninterrupted and general outlet to the interior, so as to accommodate the interchange of commodities. That cant is now fully met by the established system of RAILROADS,

plete as it was instataneous.
Yours very truly,

Editor Monthiy Law Magazine,

That the public may not be led off by suspicions that this is a mere city upon paper, we request you to en-quire—to come and see for yourselves. See the Map—Kentucky City is the northern terminus of the Great Mohlle and Ohlo Raliroad—460 miles long. of the Great Mohile and Ohio Railroad—460 miles long. See also our railroad connection by Union City and along the Nashville and Northwestern Railroad via Paris and Clarksville to Nashville, 170 miles. Also, by Kenton and along the Memphis and Ohio Road to Memphis, about 160 miles. Also via Jackson, Tenn., Hotly Springs, Canton and Jackson, Miss., to New Orleans, 5000 miles. Also via Corinth, thence along the Memphis and Oharleston Railroad to Tuscumbia, Huntsville, Chattanooga, Knoxville and the East, and with Atlanta and Savannah, Georgia. Also by the Fniton and Texas Railroad via Little Rock, through to Arkansas and Texas to the Pacific Ocean.

Also, by the Iron Mountain Railroad to St. Lonis, 150 miles. Also by the INSURANCE OFFICE. QUAKER CITY FIRE AND MARINE INSURANCE CO. GIRARD FIRE AND MARINE INSURANCE COMP'Y

As Agent of the above-named responsible and well established Companies, I will take Fire, Hull, and Cargo Risks, at the most reasonable rates of premium, and respectfully solicit a generous share of Insurance business.

This is a purely vegetable compound, prepared on scrietly scientific principles after the manner of the celebrated Holland Professor, Burhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

GREAT WESTERN STEAM BAKERY J. M. MOORE & CO.,

Steamboat and River News. STEAMBOATS LEAVING THIS DAY POR PARTICULARS SEE ADVERTISEMENTS

MINNETONKA, Mills, NO.
JOHN GAULT, Bunce, Memphis.
JOHN TOMPKINS, Sutton, Blemphis.
BOWLING GREEN, White, Henderson.
SUPERIOR, Dittman, Cincinnati. THE RIVER continues to gradually recede at all points, with but 31 inches water in the caual last evening by the mark, which makes some 31/2 feet water for steamboats. The river during the pre-vious 24 hours had fallen 2 inches at the head of

the falls. The weather continues cool for the season, and quite clear.

We hear of no boats even trying to go to Pittsburgh, and, with the exception of an occasional light propeller to Parkersburg, there is but very little river trade above Cincinnati. In the channel kence to Cincinnati the mail-

boats, although the river is steadily receding, re-port an increased depth of water over the sand bars, or rather the pilots have found a better route than that heretofore traveled. At Medoc, in the Godman chute, round the bend, they found four and a half feet water, and no trouble to get along. They also run the bend at Gunpowder, where re were over four feet water. The Quaker City was aground at Medoe when

the Boston came down.

The huge stern-wheeler Fred Trou, with a southern cargo, did not venture through the ditch yes-terday, as we supposed, but the captain, after a "sober second thought," concluded to go over to Jeffersonville, and retire to summer quarters. A number of her officers and crew went to Cincinnati on the mail boat.

The Blanche Lewis, a Paducah marine in Fowler's pet, Bateman's pride, and Bellsnyder's pet, has been sold for \$5.,500, to Captain Smedley, of the wild Indian Choctaw notoriety. We suppose the Blanche will soon essay a new career on the Ohio from this to Cairo, as extravagant rusters have a corn a stread that traights are supposed. mors have gone abroad that freights are super-abundant, and low water packets are distressingly few in number. The recent accumulation of freights at Cairo have been the origin of these reports, when the truth is, that freights are by no means plenty, and that boats are unusually numerous. Bring all your low-water Cumberlaud boats up to our office, and we'll tell you all we know about river matters.

Capt. Wiley Sims, of Nashville, came passenger on the Minnetonka, in quest of a light boat. As he purposes buying only one, there will still boa few more left for the next customer. The Chancellor has laid up at Paducuh, er freight and passengers were reshipped on the Minnetonka for this port.

The Silver Star, J. H. Done, and Gov. Powell. are all in the Evansville, Paducab and Cairo trade, as rival caudidates for public patronage. The Fairchild, Raine, and Bullitt are lying at Cairo, idly waiting for the coming of that good time so long foretold to the boatmen.

The Cumberland river has lost all claims t respectability as a stream capable of navigation by sleamboals. Canoes and cat tish are the only anstitutions that can successfully navigate among the shoals and quicksands of the wild Suwannee Thanks to Ben. F. Egan, the accomplished clerk of the skimmer of the waters, the light and freet Minnetonka, for the latest advices from Padn call, Mound City and Cairo

The Minuetonka went to Cairo in good time, and reshipped her Southern passengers and cargo on the Hiawatha and Morrison without delay, and she is now back again at railroad speed for another trip, bringing up the trip of the Chaucellor. MAIL PACKET FOR CAIRO AND MEMPHIS .- The SU

perior light draught summer packet John Gault starts to Cairo and Memphis this evening, punctually, at 5 o'clock. She carries the mail and will take passengers to all points along the Ohio, as well as to Memphis and St. Lonis. The John Gault is a Louisville boat, in charge of Capt. Jos. Bunce, also of this city, a very popular, as well as prudent boatman. Her cabin accommodations are unsurpassed, and being of unusual light draught, she will not be detained on the way. The John Gunlt connects at t'airo with the Im perial for New Orleans, ticketing passengers Navigation beyond St. Louis, particularity

ip and down the wild Missouri, is getting very necurious, and we anticipate many disasters and ishaps in that quarter Several owners of Illinois river boats have f rmed a joint stock company. The Sam Gaty, to leave Mondays and Thursdays for Peoria; An-

bry for the same. Wednesdays and Salurdays, Louisville, Tuesdays for Lasalle; Sam Young, Fridays, for Lasalle. FOR THE ST. LOTIS FAIR—TO STOUMEN—THE ATHLANTA—The Atalanda, in charge of Captain Willard, a gallant and thorough boolman, arrived from St. Louis vesterday, and will return to that yort again on Saturday. The Atalanta is one of

the largest and lightest propellers on the river, offering a rare chance to stockmen to ship their blooded cattle to the great fair to be held in St. The Atalanta is 182 feet in length, with 42 feet beam, drawing but about 18 inches water. She as unusually commodious decks for stock which

ean be carried without any injury or exposure, and as she does not start till Saturday, breeders and others going to the fair will have ample time to get ready. The boat is at Portland, and the agent is Capt. Basham, who is ready to engage freight, passengers or stock. THE JOHN TOMPEINS FOR CAIRO. - The John

ompkins, one of the stontest of the summer cet, starts to Cairo and Memphis to-day at 12 clock from the city wharf, in charge of Capt, eo. Sulton, a good boatman. The John Tompkins is in good condition and repair, having been need the trade, and stands first-rate with S. S. MARK.... the underwriters. She is of very light draught, and well adapted to the trade, with our elever and attentive triend Twomey in the clerk's office, to attend to passengers and business. o attend to passengers and business.

The Tompkins has been delayed completing he

cargo, but will depart punctually at noon, and being a regular packet, will not be delayed. MINNETONKA FOR CAIRO.—Our sanguine friend apt. Milis assures us that the flying Indian Minnctonka will depart for Cairo and all Ohio river-landings this evening. She is a perfect summer palace, and Ben Eagan, the clerk, the most perct and accomplished on the river.

The Bowling Green, from Evansville last evening, had a line trip. Capt. White reports the navigation of the lower Ohio far more difficult than it has been at any period this season, with less than four feet water on Scuffletown and Flint Island bars. The Marengo had grounded on a sunken boat, near Three Mile, we believe. The Bowling Green returns to Evansville this afternoou, from Portland.

The Superior is the light and swift packet or Cincinnati and the East to-day. She starts at noon, and passengers can obtain rooms from Mr. Danning, the attentive clerk. The Panola left St. Louis Monday for the

The John Bell started to Cairo vesterday ternoon with a heavy freight and a good num ber of passengers.

The Comet has gone into the dock, or rather on the dock, to be repaired. The Economy left Memphis Saturday night for the Ohio river. The Dr. Kane has been added to the bone yard fleet at Cincinnati.

Vocal Music will be taught by a competent master as a part of the system of instruction in the Preparatory Department.

Instruction will be given in the higher branches of Astronomy in the Junior year of the College course, aided by the powerful Equatorial Telescope counceted with the institution.

A building is now in process of construction for a Library and Reading room, which, besides a suitable library, will be supplied with the choicest English and American Periodicals. Each papil who may have access to this room will be required to subscribe for one of these periodicals or newspapers to be selected by the President of the College without regard to party polities. By this plan each pupil will, for a small sum, enjoy the benefit of access to many of the best magazines and newspapers of Great Britain and the United States.—This arrangement, together with systematic instruction in Vocal Music, is decemed highly important in the cultivation of the moral and the untellectual tastes of the youth who may be intrusted to the authorities of the College.

prepared in any age or any clime, for the same purpose.
Having ambuilted it, with an axplanation of its components, to a number of Physicians of Philadelphia. among
whom were the late Brs. Joseph Hartshorne and J. C.
Morton, It has received their entire approval, and many
of the Medical Faculty are not only prescribing it for
their patients, but are using it themselves personally, and
in their families. As a tonic, it is unequalled, and its propreties are of so invigorating a nature, that it is given with
perfect safety and success to the most tendermistate.

The Elivir' is very gradual, but certain in its action

Dr. J. Williams—Dear Sir.: For fifteen years previous to 1854, I suffered so much from Dyspepsla, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my business, and was slaking into a decline, and it was believed I never could recover; the best medical aid was procured for me, and every means resorted to without any relief, till I was activated to nee your Elixir," and from the time I began taking it I gradually insproved, till I was completely restored to health. The dreadful saftering I indured from Dyspepsla i cannot describe; but I am confident that without the use of your "Elixir" has saved me from an early death. I continue now in the enjoyment of excilent health.

R. GATES has the pleasure of announcing to the pasticular that he has taken the office formerly occupied by Dr. Einet, and permanently located in Lonavitle, Ey., where he would call the absence of a private or confidential nature, to the new method of treatment as practiced in the English and French hospitals. Having for several years made this class of diseases a SPECIALITY, with the knowledge he has of them, warrants him in saying that there is no form of symptoms which they assume that is without a quick and permanents care. Dr. 3.'s mode of treating these diseases is entirely new, having never been adopted by any other Physicianin this country.
